A GREAT
FUR SALE!

FOR 15 DAYS 10 PER CENT REDUCTION ON ALL THESE FURS.

For the next 15 days we will sell all of these Furs here advertised at a discount of 10 per cent over our regular prices. During the fall season we went on the market and purchased from various small manufacturers for spot cash great quantities of Furs. We bought these garments at prices considerably below what we would now have to pay for them, because they were made up at a season when the best workmen were not regularly employed at their regular wages.

Then, again, since this purchase, there has been a strong advance in the price of skins, in some instances from 40 to 75 per cent. This advance, together with the advance in wages, will make prices on Furs a great deal higher than our regular prices on these garments. But remember, that in addition to the extremely low regular price for the next 15 days, we are going to cut these prices 10 per cent. Every one of these garments are new—they have just come in.
